TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS R

IF YOU KNEW WHAT THIS "CAR KILLER" KNOWS...YOU'D BE DRIVING A SOLID, SILENT SUPER TORQUE F

This steel-edged pothole is probably the world's toughest test of a car's suspension. We drive into this car's roller at 30 mph, locking our brakes as we go so the wheels can't roll through the hole as they normally would. The car slams against the far edge of the hole with such impact that it literally bounds out.

If you added up the cumulative effect of all the jars and jolts your car's suspension system experiences in years of normal driving, it wouldn't match the impact of one trip through the hole. Yet—a Ford must run this test three times to prove its strength.

How can a Ford take it? Because Ford's front suspension has extra beef in spindles, springs, suspension arms—in fact, it's about 20 pounds heavier than the front suspension of our principal competitor's car.

We don't expect you to abuse your car the way we do our test cars. But, however you drive, you'll welcome the extra strength of a total performance Ford. Ford strength is tested in a thousand ways in Ford's laboratories and proving grounds—and in open competition in the world's toughest rallies and stock car events.

Look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside, and Atlanta 500, World 600 at Charlotte, N.C., and in the demanding Ford Performance Trials. Only a car with total performance—the combination of strength, balance, precision control and clinging suspension—could roll up so many wins.

Before you buy any new car, test-drive the solid, silent Torque Ford. If you haven't driven one lately, you can't know what a new Ford is like. Make this important discovery: it's built by Ford, it's built for performance...total performance.

To the Voters of Appomattox County;

I am a candidate for the office of Commissioner of Revenue for Appomattox County in the July Primary. I was born and raised in Appomattox County, graduated from Appomattox High School. I graduated from VPI three years ago and received a degree in Business Administration. Since graduating from college I have lived in Appomattox and taught Business Administration and Physical Education at E. C. Glass High School. My training, I believe, qualifies me for this office. Since finishing my teaching position at E. C. Glass High School, I have taken a temporary job to support my family. Due to this employment I find it difficult to get out and see each of you personally before the July Primary. I know that it is extremely important that I contact each voter and ask for his or her vote and support. I am unable to see you in person.

Again, I pledge to you, if elected to this office, to fulfill this position to the best of my ability and to serve all of the residents of our county courteously, efficiently, and honestly.

I solicit your vote and support for this office and trust that you will give me your every consideration and understanding.

Thank You Kindly,
Tommie O'Brien

Chevy II Nova 400 6-Passenger Station Wagon

Load up,

light out

and get lost...

Chevy II Wagons—

The heft of a suitcase. The rustle of a road map. There's something about one of these spruce, surprisingly spacious wagons that can turn even the routine preparations into a happy part of your trip.

Take that old bugaboo of packing, for instance. No bother. With the kind of room you get in that easy-loading cargo compartment, you can just toss things in any old whichway and come out with space to spare. The load won't dampen the spirits of the spunky 6-cylinder engine either. It just hums along passing up gas pumps (there's also a choice of an even thriftier 4 in most models) like it didn't have a care in the world. Fact is, it has far fewer cares than most engines—being built with the special knack Chevrolet engineers have for dependability and ease of maintenance.

Like a car with ginger—without a lot of needless gingerbread? Your dealer's got a full line of Chevy II's to pick from. Why not drop down and check now while the trading and the traveling are especially good?
